THE EXPERIENCE

An Era. A Movement. A Live Experience.

Little Moses Jones is a seven-piece powerhouse delivering the definitive 90s & 2000s R&B and Hip-Hop experience — live, elevated, and uncompromising.

For over a decade, LMJ has transformed clubs, festivals, weddings, and corporate events into full-scale concert moments. This is not nostalgia for nostalgia's sake — it's the music that shaped a generation, performed by artists who lived it, with modern production and undeniable stage presence.

"This is not a cover band. This is the sound of an era, reimagined live."

WHAT MAKES LMJ RARE

Most acts that cover 90s/2000s hip-hop rely on DJ playback or backing tracks. Little Moses Jones does something the live music world rarely sees:

- Real rappers who authentically deliver the verses — live
- Full live instrumentation: drums, bass, guitar, keys, horns
- Classic hip-hop & R&B performed the way it deserves to be heard
- Concert-level energy that turns any room into a dance floor
